

Installation of Add-In

SeriesSEE works correctly in Excel 2010+ or greater. SeriesSEE is used through a tab on the ribbon that is created after the right-most tab (Figure 1). The SeriesSEE tab appears after the Add-In has been installed (table 1). The SeriesSEE add-in, *SeriesSee.V1.31.xlam*, functions like an installed program, because it is always available in Excel and the user can forget where the Add-In is installed.

The distribution folder, **AppendixA_SeriesSEE.v.1.31**, should be unzipped and on a local drive before following the “**Install the SeriesSEE add-in**” instructions. Close this file and move the directory if need be before proceeding.

Install the SeriesSEE add-in.

Click Options on side menu after selecting File menu of Excel 2019+.

Select Add-Ins
on the Excel 2019+ Options form

Click on Go... right of the
“Manage: Excel Add-Ins”

The Add-Ins dialog window will
appear. A SeriesSEE checkbox will
not appear the first time the Add-In is
used.

Click on the Browse... button and find
the file *SeriesSee.V1.31.xlam* in
whatever directory you tossed it.

SeriesSEE generally is not
dependent on other add-ins in menu.

The Solver Add-In is the only
exception and is called by the Align
and PolyFit utilities.

<p>The <u>B</u>rowse... for Add-In will start in the standard Excel add-in folder, C:\Users\USERNAME\AppData\Roaming\Microsoft\AddIns</p> <p>Browse to the folder of your choosing.</p>	
<p>Open the SeriesSee.V1.31.xlam file.</p>	
<p>SeriesSEE will appear in the Add-Ins dialog window. SeriesSEE can be installed and uninstalled on this machine by checking and unchecking the SeriesSEE option without browsing after the first installation.</p> <p>SeriesSEE is not dependent on other add-ins in menu</p> <p>The Solver Add-In is the only exception and is called by the Align and PolyFit utilities.</p>
