<p>Expand the zip file AppendixA_SeriesSEE.v2.zip where the SeriesSEE.v2 will reside.</p> <p>Extract all.... Is windows utility, 7-zip is better.</p>

<p>Click the Add-In option on the Developer tab. (You should have made this visible when installing V1.31.)</p>	

The Add-Ins form will appear.

Uncheck Seriessee.v1.31.

A query will appear, inform you that SeriesSEE.v1.31 is missing, and ask if it should be deleted from the list.

Click YES and have it deleted.

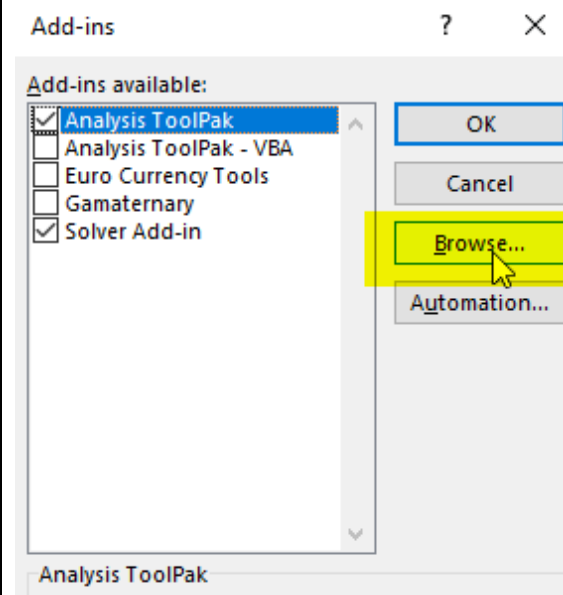

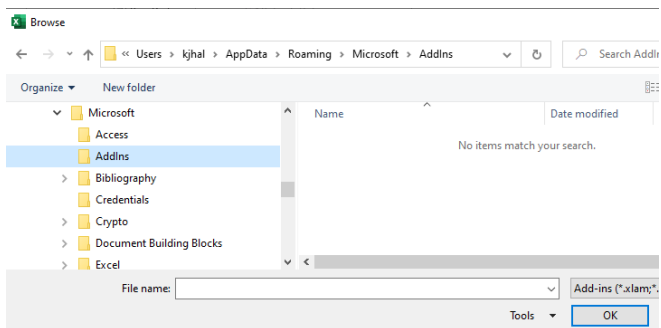

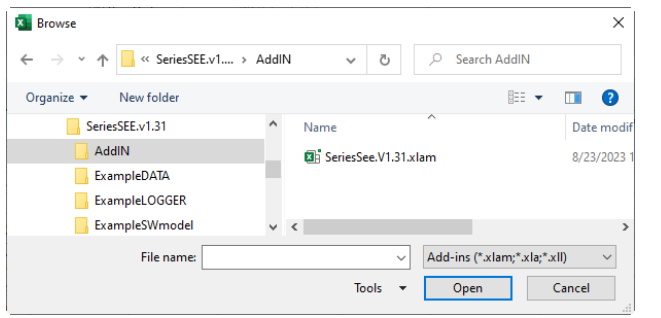

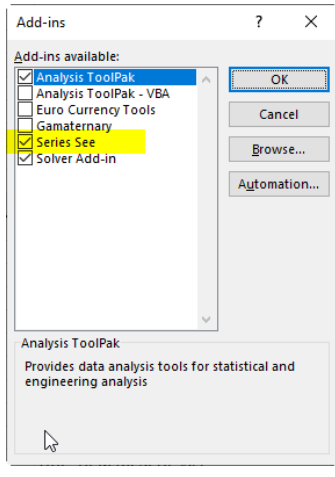

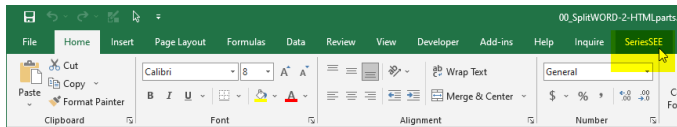

The Add-Ins dialog window will appear. A SeriesSEE checkbox will not appear the first time the Add-In is used.

Click on the Browse... button and find the file *SeriesSee.v2.xlam* in whatever directory you tossed it.

SeriesSEE generally is not dependent on other add-ins in menu.

The Solver Add-In is the only exception and is called by the Align and PolyFit utilities.

<p>The Browse... for Add-In will start in the standard Excel add-in folder, C:\Documents and Settings\USERNAME\Application Data\Microsoft\AddIns.</p> <p>Browse to the folder of your choosing.</p>
